

Earth Week BINGO!

Complete at least five activities (any five - they don't need to be all in a row!) to be entered to win prizes! Send an email to info@clarkgreenneighbors.org with details about how you completed your chosen five challenges, to be entered into the prize drawing. Entries must be received by April 30.

| Watershed Day | Consumption & Waste Day | Earth Day | Energy Day | Great Outdoors & Arbor Day |
| Use this interactive story map to answer: -What is a watershed? -Which watershed do you live in? -How can you improve your watershed's health? | Watch the Bin to Bale video about recycling, then test your knowledge by taking this quiz . | In honor of the 50th anniversary of Earth Day, learn about the history of the event and its local connection . | Learn about renewable versus nonrenewable energy and the impacts fossil fuels have on our environment. | Go on a scavenger hunt in your yard, or play I Spy looking out your window. Count how many different types of living things you find or see. |
| Calculate your individual and household Water Footprint . How does it compare to the US average? | Watch the Cart to Compost video about composting, then find an example of decomposition in your yard (or kitchen!). | Learn about climate change . Then calculate your carbon footprint or personal Overshoot Day . | Play Energy Hog to learn how to reduce your energy consumption. | Learn about nature with fun activities from the Lower Columbia Estuary Partnership. |
| Learn about water conservation with resources via the Vancouver Water Resources Education Center's webpage . | Learn about food waste , then make a meal planner to plan out your meals to eat food before it spoils. What needs to be eaten first? | Use Washington Nature Mapping to identify two animal species that can be found in Clark County. | Learn how to read your electric meter . Record your home electricity use at three different times during the day. When do you use the most energy? Why? | Celebrate the upcoming 40th anniversary of the historic eruption of Mount St. Helens with activities from the MSH Institute . |
| Use this app or this website to identify two bird species you see in your backyard. | Download an activity from the Clark County Green Schools website: CCGS coloring book and recycling/composting quiz "fortune tellers." | Create a piece of art that celebrates the earth. Bonus points for using materials that otherwise would have been sent to the landfill! | Make a sun map of your yard or a solar oven to make s'mores. | Go on a virtual field trip with the Nature Conservancy or take a field trip in your own backyard, and make a sound map of what you hear. |
| Create a piece of art representing your watershed, take a picture and send it to us! We'll put all photos together into one cool watershed collage. | Identify two disposable items in your house that could be replaced with reusables (examples: paper towels, bottled water). | Make and share a pledge to reduce your environmental impact this year by making one change. Send us your pledge! | Learn about hydropower on the Columbia River or do a hydropower activity from Bonneville Power Administration. | Take a walking or biking tour of Heritage Trees in the City of Vancouver. |
